

Basic & Intermediate Abdominal Ultrasound

For Veterinarians and Technicians

at The Ohio State University
College of Veterinary Medicine

January 21-22, 2017

14 CE Hours

Course Description

The abdominal ultrasound course offers lectures in the morning, and the afternoon is spent in the lab where attendees will gain hands-on ultrasound experience. A simplified review of ultrasound physics and technology is provided. Consideration is given to the choices in purchasing equipment and relating the various components to clinical tasks. Efficiency of examinations and medical records are emphasized.

The basic course is designed for the individual with little to no experience with diagnostic ultrasound and includes overview of abdominal ultrasound including physics, scan techniques, color Doppler, and normal abdominal sonographic anatomy. The Intermediate course is intended to provide additional hands-on practice and to serve as a preview of coming attractions for those who are not yet performing studies.

Saturday January 21, 2017

Basic Abdominal Ultrasound

- 7:30 AM Registration and continental breakfast
- 8:00 Welcome
- 8:05 Basic ultrasound physics and artifacts
- 8:55 General approach to scanning the abdomen
- 9:45 Break
- 10:00 Scanning the liver and spleen and discussion of common abnormalities
- 11:00 Scanning the genitourinary tract and discussion of common abnormalities
- 12:00 PM Lunch
- 1:00 Scanning laboratory of structures covered in lectures. Objectives will be provided for each station:
Liver
Spleen
Kidneys in dorsal recumbency
Kidneys in lateral recumbency
Caudal urogenital
Cystocentesis station with phantoms
- 4:00 Certificates and course evaluations - adjourn

Sunday January 22, 2017

Intermediate Abdominal Ultrasound

- 7:30 AM Registration and continental breakfast
- 8:00 Welcome and questions from Saturday
- 8:05 Scanning the gastrointestinal tract and pancreas and discussion of common abnormalities
- 9:00 Scanning the adrenal glands and lymph nodes and discussion of common abnormalities
- 10:00 Break
- 10:15 Introduction to doppler and scanning the abdominal vessels and discussion of common abnormalities
- 11:05 Review of techniques for ultrasound-guided aspirates and biopsies
- 12:00 PM Lunch
- 1:00 Scanning laboratory of structures covered in lectures and review as needed for Saturday's lectures. Objectives will be provided for each station:
Liver / spleen
Kidneys / adrenal glands
Caudal urogenital / sublumbar vessels /lymph nodes
Gastrointestinal tract / pancreas
Biopsy station with phantoms
Miscellaneous imaging
- 4:00 Certificates and course evaluations - adjourn

Registration

Course fees: \$650 (U.S. funds only) per day or \$1100 for both days. Registration includes conference instruction, continental breakfast, refreshments, lunch, and course proceedings. Course registration must be received by December 30, 2016. Registration is open on a first-come, first-served basis and may close prior to December 30, 2016 if the course is filled.

You may cancel your conference registration at any time prior to December 30, 2016 and receive an 80 percent refund of the course fee. There will be no refund if you are unable to attend and do not cancel prior to December 30, 2016. Full registration refunds will be issued if the conference is cancelled. We are not liable for travel expenses incurred by participants.
