

THE OHIO STATE UNIVERSITY

COLLEGE OF VETERINARY MEDICINE

Marysville Large Animal Ambulatory Clinician Assistant Professor - Clinical Track

Description: The Department of Veterinary Preventive Medicine at The Ohio State University College of Veterinary Medicine is seeking a veterinarian to provide full-time large-animal ambulatory clinical service and teaching. The successful applicant will join four other faculty members at the OSU Large Animal Services ambulatory clinic located in Marysville, Ohio and will be expected to provide exceptional patient care and excellent client service to a range of large animal clients including dairy, beef, small ruminant, and equine in a clinical teaching setting.

Location: The Marysville clinic is a full-service veterinary teaching practice providing individual animal, herd-based and emergency services for food and fiber animals and horses. The Marysville ambulatory service has over 5,000 active clients yielding more than 7,000 farm calls each year. The practice is housed in a 9,000 square foot state-of-the-art building. Marysville is located approximately 30 miles northwest of the Columbus campus. The Marysville large animal ambulatory clinical rotation is a required core learning experience for all 4th year veterinary students at OSU and is regularly rated as a top rotation by the students.

Role: Applicants should be academically oriented and have demonstrated skills and interests in clinical and production medicine and teaching. The successful candidate will currently be a practicing large animal veterinarian (as are all of the current faculty) and so must be dedicated to building and maintaining a satisfied clientele as well as teaching veterinary students. The successful candidate will also participate in didactic teaching in the pre-clinical veterinary curriculum and will be encouraged to conduct or collaborate in field-oriented research relevant to the health, welfare, and productivity of the practice clientele.

Qualifications: Required qualifications include a DVM (or equivalent) and eligibility for Ohio licensure. Graduate training and board-certification or eligibility are highly desirable but not required.

Compensation: Salary will be competitive and commensurate with the candidate's qualifications and experience. The Ohio State University makes available to faculty a comprehensive benefits package.

Application Instructions: Review of applications will begin April 15, 2021 and continue until the position is filled. To apply, interested candidates are invited to submit a letter of intent stating professional goals and interests, curriculum vitae, and the names and contact information of three professional references. Application materials should be submitted electronically to Ms. Casey Hofmann hofmann.75@osu.edu, Veterinary Preventive Medicine, 1920 Coffey Road, Columbus OH 43210 (614) 292-1206.

The Ohio State University College of Veterinary Medicine is a national leader in the education of professional and postgraduate students, research in veterinary and comparative medicine, and outreach to the community. More information about the College of Veterinary Medicine can be found at <http://vet.osu.edu> and specifically for the OSU Large Animal Services at <https://marysville.vet.ohio-state.edu/>.

To build a diverse workforce Ohio State encourages applications from individuals with disabilities, minorities, veterans, and women. The Ohio State University is an EEO/AA employer and promotes a tobacco-free campus.
