

THE OHIO STATE UNIVERSITY

Why study veterinary medicine at Ohio State?

- Largest veterinary medical center in Ohio and surrounding area; includes three separate hospitals: Hospital for Companion Animals, Hospital for Farm Animals, and Galbreath Equine Center
- Full range of specialty services, including veterinary behavior, internal medicine, dermatology, neurology, cardiology, ophthalmology, oncology, surgery, and theriogenology
- Food animal opportunities including the Marysville Large Clinic, a large ambulatory field service practice serving 18 counties
- Partnership with the Capital Area Humane Society where all students participate in a fourth-year clinical rotation in shelter medicine and surgery
- The Galbreath Equine Center, offering an equine treadmill and sports medicine expertise as well as robust equine field service practice
- More than 35,000 animal patients per year and an animal blood bank that provides blood products to veterinary hospitals across the U.S.
- Partnership with The Wilds and the Columbus Zoo and Aquarium, the #1 zoo in the country
- Dedicated, highly skilled and experienced faculty, including leading-edge educators, scientists, and clinical specialists
- Internationally known surgeons, clinicians, educators, and researchers
- Big sib mentorship program and free tutoring services for veterinary students
- More than 35 student clubs and organizations—from shelter medicine to theriogenology
- Accredited veterinary public health master's degree program (MPH), concurrent with DVM option
- Top-ranked graduate program in Comparative and Veterinary Medicine
- Robust summer research program, including grant support for summer research opportunities
- International learning and research in Spain, Ethiopia, Brazil, Thailand, and other countries
- Part of the largest and most comprehensive health science centers in the country
