Clinical Trial: Bone tumors
Species: Dogs

To participate in this trial your dog must:

- Have a confirmed diagnosis of osteosarcoma (bone tumor).
- Be a candidate for amputation.
- Have no evidence that the tumor has spread to the lung "metastasis".
- ONLY newly diagnosed dogs are eligible with no prior therapy for osteosarcoma
- Dogs receiving analgesics including NSAIDs, gabapentin, tramadol, or other will be eligible for study inclusion

What you will receive for participating

- Costs associated with this study will be provided, including a $1000 hospital credit towards your dog’s limb amputation.

Your pet could be a Pet Hero, too!
