

Dermatology and Otology Wishlist (April 2020)

\$60,000 – Bioquell Decontamination Technology (Top Priority)

In order to ensure our patients, faculty, staff and students are protected and working / receiving treatment in a clean environment, this piece of equipment will help fight against antibiotic resistance and infectious diseases.

Any Amount – Continuing Education Support

Provides funding for books and travel to educational conferences for technicians, residents and faculty.

\$1,000 - \$10,000 – Research Funds

Research funds for small clinical studies by faculty, residents or students. Often money is needed to do a small research project to gather enough information to apply for larger funding opportunities.

\$3,000 – Sponsor a Resident

Sponsor a resident by assisting with the cost of books and continuing education, gives our residents the opportunity to learn the latest information and to present the results of their research at national meetings and short courses.

\$31,000 – Portable Otoscope

A video otoscope which will allow for examinations of patients in front of the owner and will also be used for instruction of senior students on the use of the video otoscope in clinics and labs.
