

## 2019 Impact Report: Ophthalmology Service

### Overview

The Comparative Ophthalmology service at Ohio State's Veterinary Medical Center offers comprehensive care for companion and equine animals with eye abnormalities. Thank you for your support in 2019. We have immense gratitude for your support as we navigate the current challenges of the Covid-19 pandemic.

Your support allows our faculty, residents, and technicians to provide the highest level of veterinary care to our patients while training the next generation of veterinarians.

### Your Support in 2019 Enabled Us To:

- Purchase supplies for residents to practice ophthalmic microsurgery techniques
- Purchase ophthalmic photography model and kit for resident and faculty teaching opportunities
- Purchase additional cameras and cables to record surgeries for teaching residents and students
- Fund resident travel to present their research at conferences such as the American College of Veterinary Ophthalmology Conference

### An update on our service

Greetings,

Your support has enabled our faculty and staff to provide care to a diverse group of patients and varying educational experiences for our students. Many of our students have a desire to enter general practice and our service helps prepare them for their first job. **Thanks to your generosity, we have been able to make a huge impact on the community and our students.**

**Dr. Anne Gemensky-Metzler,  
Section Head, Ophthalmology**

In 2019 we received...

**4,717**

**donations to the Veterinary Medical Center from 1,032 donors**

### With Your Continued Support, We Hope To:

- Fully fund the Dr. Milton Wyman Endowed Residency in Veterinary Ophthalmology, so we can consistently fund a second resident in the service. Currently, we are over one-third of the way to our \$1.5M goal
- Fund travel for faculty, residents, and technicians for continuing education and to present research

### WANT MORE INFORMATION?

We are happy to share more information about supporting this program. Please feel free to contact the College of Veterinary Medicine Office of Advancement at **614-292-3010** to learn more.
